## TENANT CONTRIBUTIONS

The Woodside Community Gardens is now on our local television station-MVTV. With the help of Heidi Carter and Michelle from MVTV, we put together a video of our beautiful gardens. I am proud of the time and effort that was put into this project and now wish to share it with you. To view go to [MVTV.org](http://MVTV.org)—click on video on demand/channel-search-type- Woodside Community Gardens-click Q then click box with flowers (which is on the left of the screen.)

Or you can view it on our [IEHMOV.org](http://IEHMOV.org) website

Enjoy the beauty that our garden residents have given us.

Phyllis Dunn-Coordinator of the Woodside Community Gardens.

## FROM MAINTENANCE

Ah, the crisp fall weather is here.

So our attention now turns to the winter heating season; we are always looking for ways to be more energy efficient. If you feel any drafts coming from your windows or doors please let us know. We can easily replace the weather-stripping.

We occasionally have questions about how an apartment is heated, and how do I control the temperature?

There are several different heat sources that are used in the various buildings; these include baseboard, radiant floor and radiant ceiling. All are controlled by some type of thermostat, which activates some type of control mechanism. If you feel you are not getting enough heat or perhaps getting too much heat we sometimes will have to repair or replace a valve or thermostat.

If you have any questions, please do not hesitate to contact me.

Hope that everybody has a great Thanksgiving; just remember that pies are one of the basic food groups and are not fattening.

Greg Monka, Maintenance Director
